WASHINGTON, D.C. 20250

DEPARTMENTAL REGULATION		NUMBER: 1043-37
SUBJECT: ADVISORY COMMITTEES TO THE PIECS	DATE:	
	OPI: Forest Service	

1 AUTHORITY

The charter for the six Provincial Advisory Committees (PACs), which provides advice to the Provincial Interagency Executive Committees (PIECs) for 12 provinces, is hereby re-established pursuant to the implementation of E-19 of the Record of Decision. The PIECs are areas set up under the Northwest Forest Plan. The PACs are in the public interest and are established in accordance with the provisions of the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C. App II. The PACs are also in accordance with an Interagency Agreement established between the USDA Forest Service and the USDI Bureau of Land Management (BLM) which enables each agency to provide local forums and develop ways to better coordinate activities with non-Federal entities.

The PIECs facilitate the successful implementation of the Record of Decision for Amendments to the Forest Service and Bureau of Land Management Planning Documents within the Range of the Northern Spotted Owl (ROD) of April 13, 1994. They consist of representatives of some or all of the following Federal agencies: the Forest Service, Bureau of Land Management (BLM), U.S. Fish and Wildlife Service, National Marine Fisheries Service, Bureau of Indian Affairs, National Park Service, the Environmental Protection Agency, Natural Resources Conservation Service, U.S. Geological Survey Biological Resources Division, and U.S. Army Corps of Engineers.

The Secretary of Agriculture (Secretary) is re-establishing the following PACs to provide advice and make recommendations to promote better integration of forest management activities between Federal and non-Federal entities to ensure that such activities are complementary.

The PACs advising the PIECs for the 12 provinces are as follows:

- (1) Eastern Washington Cascades Provincial Advisory Committee,
- (2) California Coast Provincial Advisory Committee,
- (3) Olympic Peninsula Provincial Advisory Committee,
- (4) Deschutes Provincial Advisory Committee,

- (5) Yakima Provincial Advisory Committee, and
- (6) Oregon Coast Provincial Advisory Committee.

This regulation supersedes DR 1043-37, June 5, 2008.

2 PURPOSE AND SCOPE

The purpose of the PACs is to advise the PIECs on coordinating the implementation of the ROD. Each PAC provides advice regarding implementation of a comprehensive ecosystem management strategy for Federal land within a province (provinces are defined in the ROD at E19).

The ROD provides direction to the Forest Service and the BLM for developing an ecosystem management approach that is consistent with statutory authority for land use planning, such as the Forest Rangeland Renewable Resources Planning Act, the National Forest Management Act, and the Federal Land Policy and Management Act. (See the ROD, page 5.) Ecosystem management at the province level requires improved coordination among governmental entities responsible for land management decisions and the public they serve.

3 DESCRIPTION OF DUTIES

- (1) The PACs shall be solely advisory in nature.
 - b. The PACs, and any other committee that takes on the responsibility of providing advice to the PIECS, makes recommendations on the implementation of the ROD.
 - c. The PACs provide advice on provincial level analyses and monitoring, provide a forum for information exchange, and encourage complementary ecosystem management among Federal and non-Federal land managers.
 - d. Each PAC may create and operate subcommittees or working groups recommended by its members and approved by the Secretary or designated Federal officer. Working groups or subcommittees may include individuals who are not members of a PAC and may be community-based groups that would provide advice and recommendations to a PAC on land management issues related to the Adaptive Management Areas or other land-use classifications described in Attachment A of the ROD.
